Schedule - H:

Significant Accounting Policies and Notes to Accounts (Annexed to and forming part of Balance Sheet as at March 31, 2011 and Revenue Account for the year ended March 31, 2011).

1 Significant Accounting Policies :

a) Method of Accounting

The Scheme maintains its books of accounts on accrual basis. The accounting policies of the Scheme and its Financial Statements are prepared in accordance with Securities and Exchange Board of India (Mutual Fund) Regulations, 1996 (SEBI).

b) Portfolio Valuation

Investments are valued on "Marked to Market" basis, as per SEBI guidelines principally as stated below:

I. Traded debt and money market securities, (other than Government Securities of over 91 days to maturity) are valued at the weighted average price at which they are traded on a particular valuation day. Upto July 31, 2010, these were valued based on the closing traded price. A debt security (other than Government Securities) is considered as a thinly traded security if on the valuation date, there are no individual trades in that security in marketable lots (presently Rs. 5 crore) on the principal stock exchange or any other stock exchange.

II. Non-Traded/Thinly traded debt and money market securities are valued at fair value, as determined "in good faith" by the Board of the Asset Management Company, in accordance with the guidelines for valuation of securities for mutual funds, as issued by SEBI and approved by the Board of the Trustee Company as given below :

i) Non Traded / thinly traded debt and money market securities, including floating rate securities, with residual maturity of upto 91 days, are valued on amortisation basis. Upto July 31, 2010, these securities with residual maturity of upto 182 days were valued on amortisation basis.

ii) Non traded / thinly traded debt and money market securities, including floating rate securities, with residual maturity of over 91 days, are valued at the benchmark yield/ matrix of spread over the risk free benchmark yield obtained from agencies entrusted for the said purpose by AMFI. Upto July 31, 2010, these securities with residual maturity of over 182 days, were valued at the benchmark yield/ matrix of spread over the risk free benchmark yield obtained from agencies entrusted for the said purpose by AMFI.

iii) Non-investment grade performing debt securities are valued at a discount of 25% to the face value.

iv) Non-investment grade non-performing debt securities are valued net of provisions.

III. Investments in Central Government Securities are valued at the prices released by CRISIL, an AMFI approved independent agency, in accordance with the SEBI regulations.

IV. Investments in Collateralised Borrowing and Lending Obligation (CBLO), bills purchased under rediscounting scheme and short-term deposits with banks are valued at cost plus accrual.

c) Investment Transactions

Investment transactions are accounted on the trade date for equity and debt securities. The cost of acquisition includes the cost of purchase, stamp duty, securities transaction tax and charges customarily included in the broker's bought note. In respect of privately placed debt instruments, front-end discount is reduced from the cost of investment.

d) Recognition of revenue and treatment of expenses

I. Interest is accrued on a day-to-day basis, except for debt classified as non-performing assets, on which interest is recognised on receipt basis, in line with applicable regulations. In respect of interest bearing investments, interest paid at the time of purchase for the period from the last interest due date upto the date of purchase is debited to Interest Recoverable Account and interest received at the time of sale for the period from the last interest due date upto the date of sale is credited to Interest Recoverable Account.

II. If the interest is not received till after the expiry of the 1st quarter from the date the income has fallen due, no further interest accrual is made on that asset.

III. The net unrealised gain/loss in the value of investments is determined separately for each class of investment. Further, the change in net unrealised gain/ loss, if any, between two balance sheet dates, is recognised in the Revenue Account. However, unrealised gain is excluded for calculating distributable income at the time of dividend distribution.

IV. Registrar expenses common to the fund have been allocated in proportion to the monthly number of transactions and other common expenses have been allocated in proportion to the number of unitholders of the respective schemes as at the month-end to which the expenses pertain.

V. Profit or loss on sale or redemption of investments is computed by comparing the sale price with the weighted average cost of investments sold.

VI. Marketing and incidental expenses incurred in connection with the collection / redemption of the units are charged to the respective scheme and common marketing expenses are allocated to all open ended schemes in proportion to the unitholder folios in each scheme. Expenses incurred in excess of the regulatory limits are adjusted against exit load payable to the extent available. Expenses incurred excess of load available are charged to the AMC.

e) Unit Re-purchase/ Sale transactions

Unit repurchase/sale transactions are recorded on the basis of advice received from the Registrar & Transfer agent on a daily basis. The discount/premium on re-purchase is credited/debited to Unit Premium Reserve. Similarly the discount/premium on sale of units is debited/credited to Unit Premium Reserve.

f) Income Equalisation Reserve

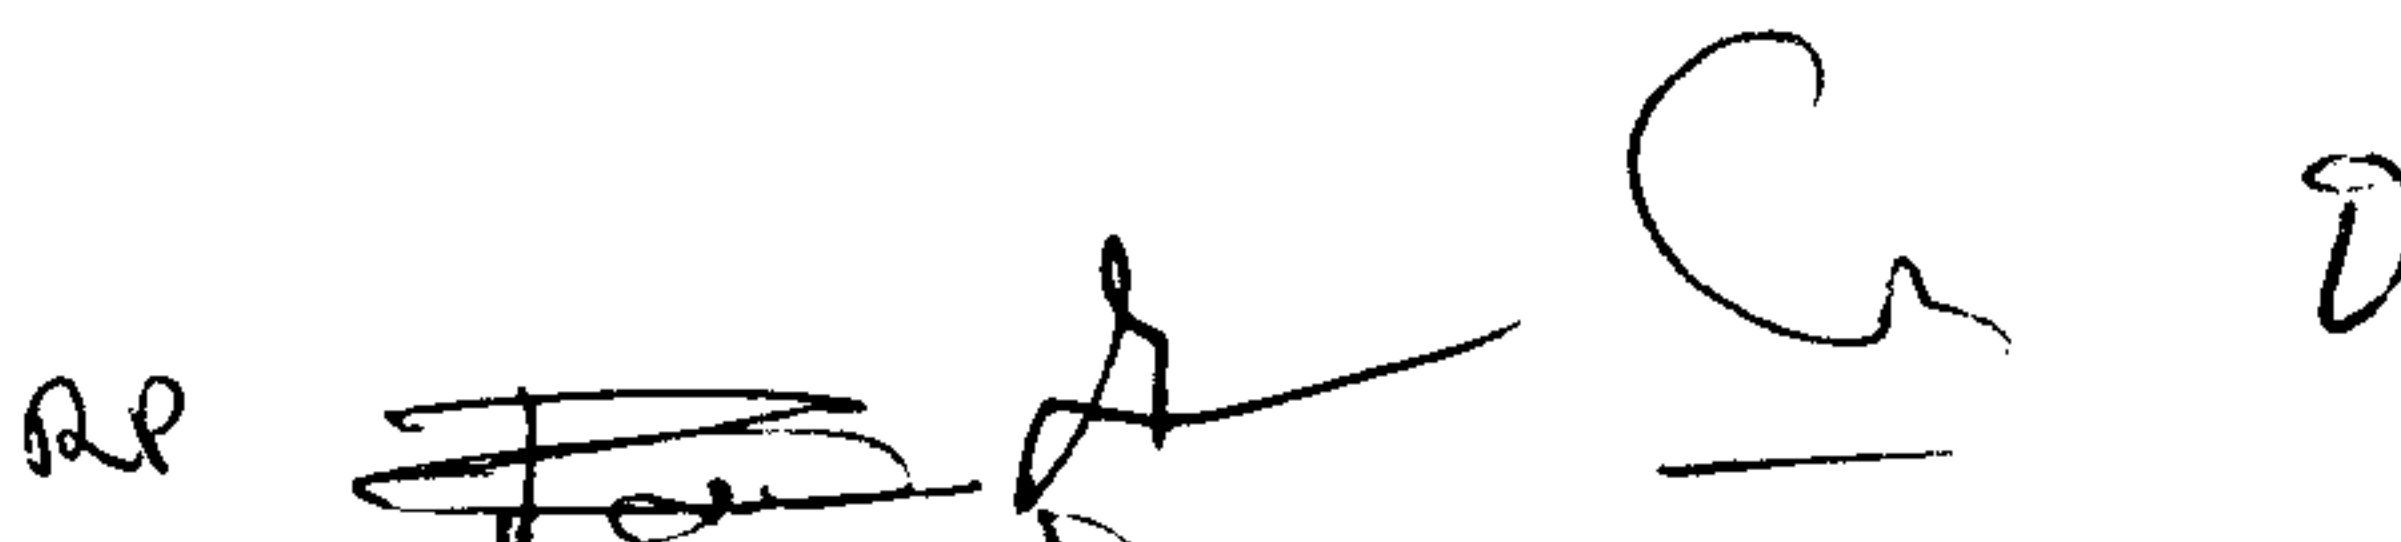

Pursuant to SEBI circular dated March 15, 2010, in the case of open ended schemes, when units are purchased / sold by the scheme at NAV based price, an amount representing unrealised appreciation per unit is transferred to Unit Premium Reserve. The balance amount of purchase / sale price after reducing the face value of units is transferred to Income Equalisation and net balance of this account is credited or debited to Revenue Account at the year end. The distributable surplus is arrived after excluding both unit premium reserve as well as unrealised appreciation from NAV.

g) Determination of net asset values

I. The net asset value of the units of the scheme is determined separately for units issued under the different plans / options.

II. For calculating the net asset values under different plans / options, the amount of sale/repurchase of units under each plan / option are separately accounted for. Further, net income arising from such deployment are allocated daily to the plans / options in proportion to their Net Asset Values.

h) Entry and Exit Load

RP  

I. No entry load is charged on fresh purchase applications received after August 01, 2009.

II. The Exit Load charged upto 1% is utilised for meeting marketing and incidental expenses. Unutilised amount of load is carried forward to subsequent years unless the same is considered to be in excess by the Trustees. In the event the load is considered to be in excess by the trustees, the same is recognised as an income. Exit Load charged above 1% is recognised as an Income of the scheme immediately.

#### Notes to Accounts

2 Taurus Short Term Income Fund was launched as on July 23, 2001 and closed on August 18, 2001. The scheme seeks to generate income and capital appreciation with low volatility by investing in a diversified portfolio of short term debt and money market instruments. The Scheme has two plans namely Dividend Plan and Growth Plan. A combined Balance Sheet and Revenue Account is prepared for the scheme.

3 The name of scheme was changed from "Taurus Income Fund" to "Taurus Short Term Income Fund" with effect from April 09, 2010 as approved by the board of Trustees company. Further, the face value of the units was changed from Rs.10 to Rs. 1,000 with effect from April 26, 2010.
